Gloria:

Could you please explain "cost not greater than remedial, other OSC could take over, and, Rafael later offered in a conversation at my desk that he would perform the removal work, along with the RI/FS, if he was granted permission to perform the removal work. "

Why would "other OSC could take over or Rafael could do the removal work"? What was this discussed. I can do this work myself without another OSC/RPM taking over my work. I would like to know the context of these statements. As I understand, there were no Removal Managers present at this meeting. I was at the ESCO site doing drainage repair work and could not make the meeting.

Thanks

Gloria:

Please talk to Bergner on March 31 and find out if he was able to sell the facility and close. I know that Pam decided for us to take it over but if it actually closes, I am going to ask my management to push the issue of allowing the PRP to complete. This is likely to be much more costly for us to do the work than the PRP because of their history on the facility. Our contractors have no history, and we would have to basically reassess before we could do the cleanup.

Thanks
